ABOUT US

KIA ORANA,

The Fleet Department efficiently manages all facets of vessel registration within the Cook Islands Ship Registry. Our mission is to deliver a seamless registration experience that upholds the highest standards of safe and secure shipping practices, promoting cleaner oceans and sustainable maritime practices while ensuring compliance with international regulations and industry standards.

Headquartered in Rarotonga, Maritime Cook Islands (MCI) maintains a strong international presence, with regional operations across Europe and Asia supported by dedicated fleet managers in Italy, Croatia, Denmark, and Monaco.

MCI remains firmly committed to meeting the commercial needs of its clients by providing prompt, efficient and reliable vessel registration services and prioritizing the protection of shipowners, mortgagees and charterers.

SERVICES

REGISTRATION FOR MERCHANT SHIPS

Maritime Cook Islands provides a comprehensive range of registration solutions tailored to specific vessel operations and commercial requirements.

Merchant Shipping is defined as the registration of cargo vessels, tankers, and specialized units engaged in international trade and commerce. To maintain valid registration, the following requirements must be met:

- **Operational Compliance:** Vessels must demonstrate full adherence to all applicable IMO instruments, including SOLAS, MARPOL, and Load Line conventions.
- **Classification and Survey:** Mandatory classification and survey by an IACS-recognized Society is required for all vessels to verify structural integrity and technical safety.
- **Crew and Insurance:** All officers must hold valid Cook Islands Endorsements. Vessels must maintain continuous P&I coverage, including mandatory MLC, Wreck Removal, and Bunker Convention certifications.

OWNERSHIP

MCI provides pathways for owners to meet Cook Islands' ownership requirements. Owners can choose from membership-based associations or company structures, depending on their operational needs.

Cook Islands Ship Owners Association (CISOA):

Established in 2015, CISOA provides shipowners with a fast and efficient means of fulfilling ownership requirements. Membership allows vessels to be registered in the Cook Islands without the need to establish a separate company. The definition of person for membership purposes includes companies, trusts, individuals, and partnerships of individuals. This broad definition enables foreign corporations to become members without requiring local incorporation.

International Company Incorporation

The Cook Islands International Companies Act 1981–82 allows for the formation of international companies with administrative ease and flexibility. Incorporation must be conducted through a licensed trustee company, which manages both registration and ongoing compliance obligations.

Foreign Company Registration

Foreign companies incorporated outside the Cook Islands can register under the International Companies Act to establish a local branch. This provides an additional option for owners seeking a Cook Islands presence. As with international companies, a licensed Cook Islands trust company oversees the registration process and administrative duties.

SERVICES

MORTGAGE REGISTRATION

The Cook Islands' legal system is based on British Common Law, providing an efficient jurisdiction for maritime legal proceedings.

The Ship Registration Act establishes robust statutory safeguards for mortgagees' rights, offering international financial institutions the legal certainty required to finance vessels registered under the Cook Islands flag. Registered mortgages are recorded with precise date and time stamps to establish priority, ensuring comprehensive protection for financiers under a recognised Common Law framework.

INSURANCE

- **Nairobi International Convention on the Removal of Wrecks, 2007**

Registered owners of ships above 300GT will need insurance cover arrangements, which meet the requirements of the Convention. The Convention provides a strict liability, compensation and compulsory insurance regime for States affected by a maritime casualty.

- **International Convention on Civil Liability for Bunker Oil Pollution Damage, 2001**

The Convention applies to damage caused on the territory, including the territorial sea, and in exclusive economic zones of States Parties. This applies to vessels over 1,000GT

- **International Convention on Civil Liability for Oil Pollution Damage (CLC), 1992**

The Convention applies to all seagoing vessels carrying oil in bulk as cargo, but only ships carrying more than 2,000 tons of oil are required to maintain insurance in respect of oil pollution damage.

- **Protection & Indemnity (P&I) Insurance**

All clients interested to register with MCI must insure their vessels with an approved P&I club. Insurance companies, financial security providers and P&I Clubs that are not listed on our website and wish to gain approval may submit a request to insurance@maritimecookislands.com.

SURVEY SERVICES

ISM, ISPS, MLC AUDITS

The Marine Operation and Compliance Department supervises the survey and certification process concerning ISM (International Safety Management), ISPS (International Ship and Port Facility Security Code), and MLC (Maritime Labour Convention). MCI adopts a close coordination approach with the approved Recognised Organisations acting on its behalf, providing instructions and concurrence as necessary. In some selected cases MCI can perform direct audits and issue relevant certification.

COOK ISLANDS APPROVED SURVEYORS

Maritime Cook Islands has established a global network of inspectors and Auditors. The extensive network enables the representatives of MCI to effectively address the needs of shipowners in the majority of major ports worldwide. Their presence and expertise provide valuable assistance and support to shipowners, ensuring compliance with regulations and facilitating seamless operations in various international ports.

REGULATORY STANDARDS

REGULATORY AUTHORITY AND STANDARDS

Maritime Cook Islands compliance is governed by the Financial Transactions Reporting (Maritime Cook Islands) Regulations 2017 and the Countering Terrorism and the Proliferation of Weapons of Mass Destruction Act 2004. We maintain a proactive posture regarding Financial Action Task Force (FATF) standards, working closely with the Cook Islands Financial Intelligence Unit (FIU) to uphold the integrity of our flag.

THE COOK ISLANDS GLOBAL COMPLIANCE STANDING AND FATF CLASSIFICATION

Recognized by the Financial Action Task Force/Asia Pacific Group on Money Laundering as a global leader in technical compliance—outperforming numerous traditional financial centers—the Cook Islands provides a secure and transparent jurisdiction for maritime registration. This premier standing is confirmed by current FATF assessments, which classify the Cook Islands as a fully cooperative, low-risk jurisdiction.

EU AND OECD REGULATORY STANDING

The Cook Islands is a dedicated participant in the Common Reporting Standard (CRS) and the international framework for mutual assistance in tax matters, consistently meeting global benchmarks for transparency. The jurisdiction is currently advancing through its scheduled OECD assessment phase, demonstrating an active and successful implementation of CRS protocols. While "economic substance" requirements primarily focus on zero-tax environments, the Cook Islands continues to distinguish itself through a steadfast commitment to international cooperation and rigorous reporting standards. As a result, the jurisdiction maintains an excellent reputation with all major oversight bodies and is not flagged for any negative regulatory matters.

CUSTOMER DUE DILIGENCE

As the Administrator of the Cook Islands Ships Registry, Maritime Cook Islands (MCI) operates within a rigorous legal framework to maintain the highest standards of transparency, security, and international compliance. Our Customer Due Diligence (CDD) protocols are engineered to mitigate risk and safeguard the integrity of the flag, while ensuring a streamlined registration process for reputable ship owners and operators.

To maintain this standard, MCI employs a structured, risk-based approach to due diligence, executed across three distinct phases:

- **Identification and Verification (KYC):** We verify the legal existence of the owning entity and the identity of the Shareholders, Directors & Ultimate Beneficial Owners (UBOs) down to the natural persons.
- **Ongoing Monitoring:** Compliance does not end at registration. Our Monitoring Division utilises advanced intelligence software for real-time tracking (AIS monitoring) & LRIT to detect "dark activity," unauthorized Ship-to-Ship (STS) transfers, or voyage irregularities.
- **Sanctions Screening:** All applicants undergo rigorous vetting against UN, OFAC, UK, and EU sanctions lists. MCI maintains a zero-tolerance policy regarding vessels or entities linked to sanctioned regimes or prohibited trade activities.
- **Sanctions and Deceptive Shipping Policies:** Cook Islands-registered vessels must adhere to all applicable international sanctions. The registry prohibits the transport of restricted petroleum products from sanctioned jurisdictions. To maintain the integrity of the flag, MCI monitors shipping activities daily; any vessel engaged in deceptive practices, including the manipulation or disabling of AIS data ("spoofing"), will be subject to immediate de-registration.

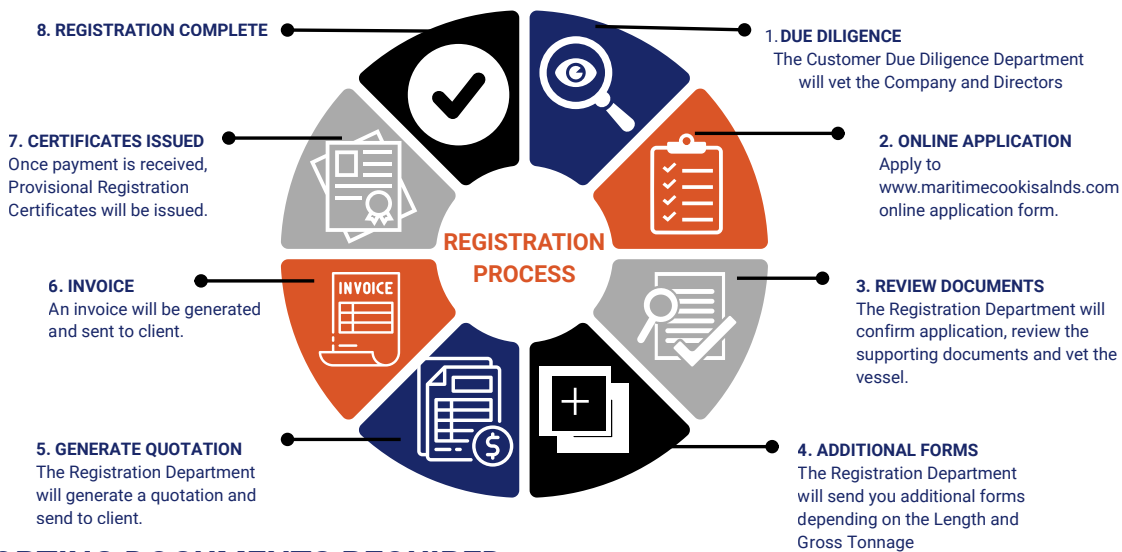

REGISTRATION PROCESS

The Cook Islands Ship Registry provides a streamlined, cost-effective vessel registration process, ensuring compliance with international maritime standards to help vessel owners operate securely and efficiently worldwide. Registration with Maritime Cook Islands follows a mandatory two-stage process, designed for both efficiency and thorough compliance.

FIRST STAGE: PROVISIONAL REGISTRATION

Provisional Registration grants the vessel temporary legal status for an initial period of 3 months, extendable up to a maximum of 6 months total. This initial phase allows the vessel to begin operations while the owner gathers all outstanding documentation (such as deletion from the previous flag) and completes all mandatory statutory surveys

SUPPORTING DOCUMENTS REQUIRED

Core documents required

- Bill of Sale / Builders Certificate (if new build)
- Evidence of Shareholding of Owners
- Certificate of Incorporation of owning company
- CISOA (For merchant vessels) /CIYS (for Yachts) Form and supporting documents (if applicable)
- Pre-registration Inspection (if applicable)

Supplementary Documents based on vessel type

- If Merchant and Commercial yacht carrying out commercial operations**
- Copy of current P&I (including MLC) under previous flag
 - All officers onboard must submit application for STCW Endorsement

- If Merchant and Commercial yacht over 300 GT**
- Vessels last Port State Control Reports (in the last 3 years)

- If over 500 GT**
- Copy of Classification Certificates under previous flag
 - All copies of previous CSR. CSR Form 2, CSR Form 3 (as per SOLAS Chapter XI-I Regulation 5-8) (except private yachts, tugs, barges, fishing vessels)

- If Charter Registration**
- Copy of Charter Agreement
 - Written consent from underlying flag to charter to Cook Islands Flag (if charter registration)

COOK ISLANDS
The Cook Islands Ship Registry

REGISTRATION PROCESS

SECOND STAGE: PERMANENT REGISTRATION

Permanent Registration formally finalizes the process, securing the vessel's place on the Cook Islands Ship Register and validating its full compliance with national and international standards. The issuance of the Permanent Certificate confirms that all key documents have been verified, final requirements, such as the Carving and Marking Note and Proof of Deletion from the previous flag, have been met, and all necessary certificates (including officer endorsements) are in place

To successfully complete the permanent registration process, all supporting documentation and surveys must be completed within a 3-month period from provisional registration.

SUPPORTING DOCUMENTS REQUIRED

Core documents required

- Carving and Markings Note, including photo evidence and a full photo of vessel
- Proof of Deletion from previous flag (if applicable)

Supplementary Documents based on vessel type

If Merchant and Commercial yacht carrying out commercial operations

- Copy of P&I Policy evidencing financial security for MLC regulation 2.5 and 4.2 (applicable to all commercial vessels; MCI requires that the MLC financial security is maintained and will require evidence that it is maintained).

If over 300 GT undergoing international voyages

- Copy of Long Range Identification Tracking (LRIT) Conformance Test Report (CTR)

If over 500 GT

- Copy of Classification Certificates under Cook Islands flag
- Closed CSR (as per SOLAS Chapter XI-I Regulation 5-8)

If Charter Registration

- Proof of suspension from previous flag (if charter registration)
